ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: DEVICE FOR CLEANING THE FIRE TUBES IN A BOILER

(57) Abstract: A device for use when cleaning the heating surface of a tube changer, such as the fire tubes (3) in a boiler (1), comprises a scraper member (14) that is fixed to a movement member (13) for moving said scraper member (14) through one fire tube (3) at a time and a guide (10) for positioning the scraper member (14) directly in front of the open end (4) of a fire tube (3), such that said scraper member (14) can be moved from the guide (10) into the fire tube (3) and conversely from the fire tube (3) into the guide (10). The guide (10) can be moved on a frame (8) transversely with respect to the longitudinal direction of the fire tubes (3) for automatic cleaning of the fire tubes (3) both when in service and out of service.
